

Rescue the Compromised Dentition

If you have a desire to assist your patients to maintain their teeth for as long as possible and improve the quality of the dental treatment you are providing, then you will not be disappointed in spending two days with Dr. Richard Schmidt as he walks you through how positive outcomes are achieved when using the clear aligner system, Invisalign.

Dr. Schmidt uses the concept of “Orthodontic Dentistry” to provide the best possible outcomes for adult patients using the “Four Pillars of Tooth Positioning” (periodontal considerations, restorative options, function and aesthetic concerns) to **Rescue the Compromised Dentition.**

“I have known Dr. Richard Schmidt for many years, he is one of the most passionate and innovative students I have worked with. Richard’s goals to maintain teeth, and utilize aligner therapy to aid in the process, are something every dentist should consider. His presentation will show you things that will open your eyes to the possibilities that aligners and creativity can provide in maintaining teeth.

Dr. Frank Spear

Before & After of Sample Cases:

The following topics will be discussed:

Day One:

WHY tooth positioning is vitally important to obtain the ‘Best Possible Outcome’:

- Fundamentals of diagnosis
- The Worn Dentition
- Aesthetic dilemmas
- VDO challenges
- The Tipped and Over-erupted Molar

- Orthodontic Induced Bone Generation to increase bone for Implant placement
- Crowding and Spacing issues
- How to transform a '*hopeless*' tooth into a '*useful*' one.
- Plus a few other interesting topics.

Day Two:

HOW to use the 'Invisalign System', with attendee participation, to:

- Develop a Treatment Plan for the Adult Patient
- Develop the Clincheck and Implement Phased Treatment
- Prioritize the final tooth positioning to complete the restorative phase.

Date: Fri. May 3'2024 and Sat. May 4'24.

Time: Registration and Breakfast @ 7:00am

Presentation begins @ 8:00am

Lunch 12:30 – 1:30

Presentation ends @ 5:00 on Friday and 4:00 on Saturday.

Venue: Mississauga Convention Center, 75 Derry Road West, Mississauga, L5W1G3

Registration Fee: includes breakfast and lunch.

Fri. May 3'24 **only:** \$995.00

Sat. May 4'24 **only:** \$995.00

Both Fri. and Sat.: \$1,895.00

BONUS: The first 40 dentists to register will receive a complimentary diagnosis and treatment plan session (a \$475.00 value) with Dr. Schmidt. With permission, the case may be shared with the attendees on Day Two.

ADDITIONAL BONUS: All attendees will receive two reference Guidebooks:
“*Rescue the Compromised Dentition*” and “*The Management of Anterior Tooth Wear*”
